## - Power Query Editor

The screenshot displays the Microsoft Power Query Editor window. The main area shows a data table with the following columns: **id**, **age**, **gender**, **height**, and **weight**. The data is organized into rows, with the first row being the header. The 'Query Settings' pane on the right indicates the query name is 'cardio\_train' and lists the applied steps: 'Source', 'Promoted Headers', and 'Changed Type'.
